Essential Protection for Your PC

Think of all the precious things on your PC. We can help you protect them against viruses, spyware & more. Our award-winning security makes it easy to defeat digital dangers – without slowing you down.

Description

Product Features

SECURITY – Keeps you safe from viruses, spyware and more

Because your PC stores so many valuable and confidential things, our award-winning security technologies help you to keep them safe against today's threats.

PERFORMANCE – Lets your PC perform... just as it was designed to

Security shouldn't slow you down. So we've worked hard – combining protection and performance – to ensure your PC doesn't have to work so hard... and you can get on with your busy life.

SIMPLICITY – Simplifies your security... with easy, online control

Nobody wants to waste time getting to grips with complex security. That's why we give you a free My Kaspersky account that makes it easy to manage your security from anywhere you can get online.
